THE FLOTEC INDUSTRIAL MISSION:

To be a trusted and leading supplier of hydraulic, pneumatic and pipeline products and services to industries which have a need for the Flotec offering.

Flotec Industrial Limited is an official Gates Hydraulics Distributor and OEM Partner.

As a Gates Hydraulics Distributor, Flotec is able to offer clients industry leading engineering products and solutions.

MCX20-HP

Powerful, lightweight, portable hand-operated crimper, ideal for field service operations. Comes with separate box, designed to contain complete set of dies. Crimps no-skive GlobalSpiral™ couplings up to 1" and no-skive MegaCrimp® couplings for wirebraid hose up to 1.1/4".

- Easy-to-use products designed to ensure fast, comfortable handling
- Gates MCX crimpers run grease-free which lowers maintenance costs

MCX25-220V / MCX25 – 380V (3 PHASE)

Compact electric crimper for low-volume production.

Ideal as starter machine or for small workshops. Crimps no-skive GlobalSpiral™ couplings up to 1" and no-skive MegaCrimp® couplings for wire braid hose up to 1.1/4".

Equipped with a die set storage rack allowing for logically organised die storage within easy reach of the operator, thus speeding up die selection and assembly. Also available for mobile service with DC power pack.

- Easy-to-use products are designed to ensure fast, comfortable handling and we have incorporated this also in our crimper programme
- Gates MCX crimpers lower your maintenance costs by running grease-free

MCX30 – 12V / MCX30-220V MCX30- 380V (3 PHASE)

Compact, operator-friendly electric machine to crimp the complete Gatesrange up to 1.1/4". Optional foot pedal to enable hands-free operation. Equipped with a die set storage rack allowing for logically organised die storage within easy reach of the operator, thus speeding up die selection and assembly. Also available for mobile service with DC power pack.

- Easy-to-use products are designed to ensure fast, comfortable handling and we have incorporated this also in our crimper programme
- Gates MCX crimpers lower your maintenance costs by running grease-free

MKX25 12v / MKX25 220v / MKX30 380v Gates Hose Cutters

Gates hose cutters are robust and compact machines, distinguishing themselves by their safe and high quality cutting function. The range of electrical cutters are all hand controlled for guided cutting, thus allowing for optimal speed control and a reduction in blade damage.

The blades are positioned close to the powerful motors to limit vibration which enhances the durability and reduces maintenance costs.

Other benefits such as low energy consumption, CE compliant brake motors for 3-phase cutting machines, built-in protection, and limited smoke production all support the working environment and personnel safety.

Flotec offers Gates Safe Hydraulics training with a certificate provided upon successful completion.

WORKTOPS AND BENCHES

As part of a total package and service provision, Flotec can supply a range of worktops and benches suitable for individual client needs.
