

BECAUSE
**YOUR
PEOPLE
MATTER**

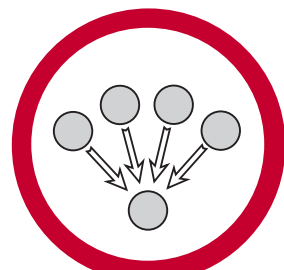

DRIVEN BY POSSIBILITY™

SIMPLIFIES HOSE OPTIONS

Multi Master™ GMV™ MegaFlex™ hose covers four different industry applications. This makes training new employees faster and allows Operators to concentrate on their task, not hose selection.

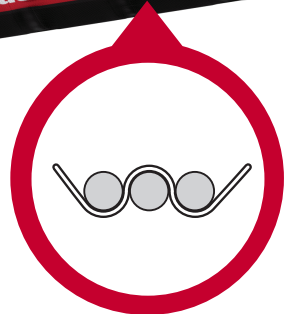

LIGHTER TO CARRY

Multi Master™ GMV™ MegaFlex™ is easier to lift and move, especially for employees performing repetitive tasks.

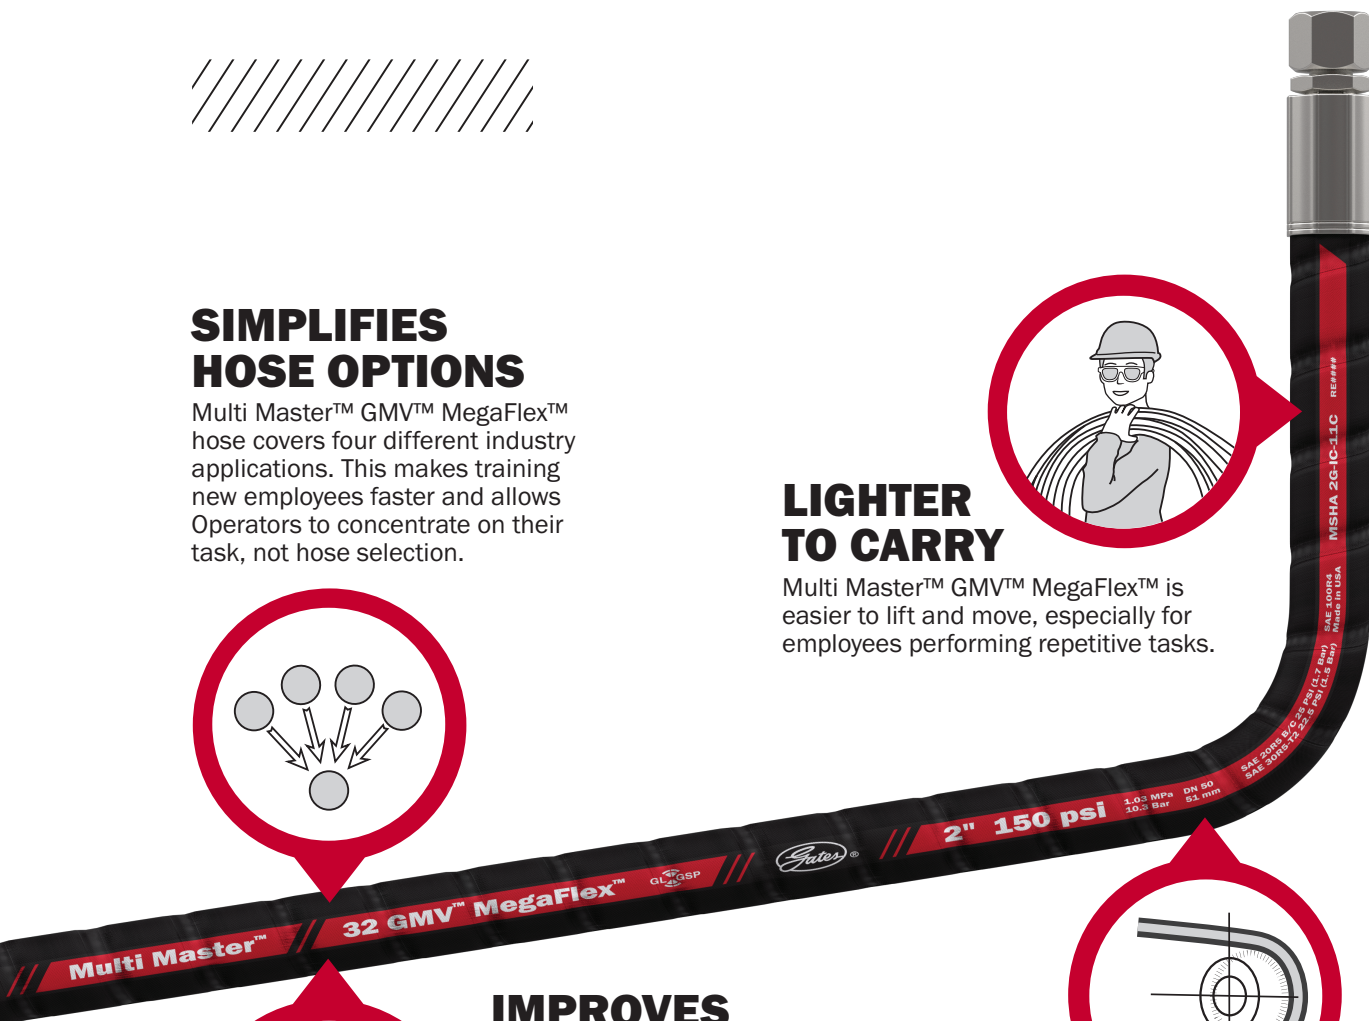

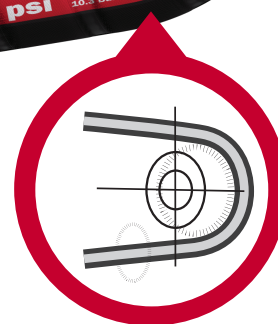

IMPROVES ERGONOMICS

Multi Master™ GMV™ MegaFlex™ hose reduces fatigue and strain during installation due to easier routing, which can reduce Lost Time Incidents. Fewer injuries lead to a stable workforce and employee satisfaction.

EASIER TO BEND

With 40% less force-to-bend and a minimum bend radius 1/5th of the SAE specification, this hose is faster to install and easier to route, which increases productivity while also taking care of your people.

Multi Master™ GMV™ MegaFlex™

KEEPS YOUR WORK FORCE SAFE AND ON THE JOB

BECAUSE

INVENTORY COSTS

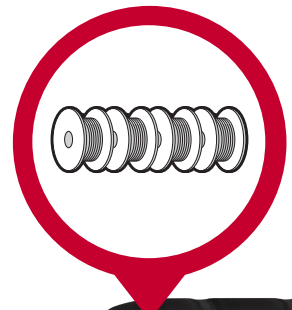

DRIVEN BY POSSIBILITY™

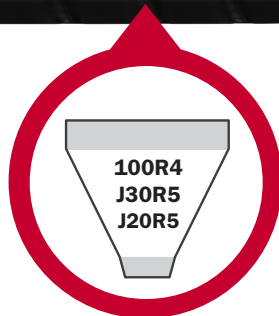

AVAILABILITY

Multi Master™ GMV™ MegaFlex™ covers multiple industrial applications, so you'll always have the right hose in stock for your customer.

CONSOLIDATE INVENTORY

Four applications. One hose. Allowing you to consolidate your inventory while saving both warehouse space and material handling costs.

MULTI-SPECIFICATION HOSE

Multi Master™ GMV™ MegaFlex™ hose is a cross-functional solution, covering three different specifications, giving you the right hose at the right time.

Multi Master™ GMV™ MegaFlex™

DESIGNED TO MINIMIZE WORKING CAPITAL

BECAUSE

OPERATIONS DEMAND EFFICIENCY

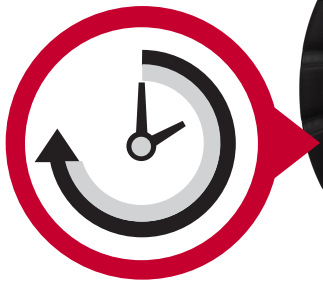

DRIVEN BY POSSIBILITY™

FASTER AND EASIER ROUTING

Overcome bottlenecks and complex routings with Multi Master™ GMV™ MegaFlex™ hose. Faster assembly means increased output for your operation.

REDUCE MATERIAL COSTS

With less weight, exceptional flexibility and maximum kink resistance, Multi Master™ GMV™ MegaFlex™ allows you to use less hose to get from port-to-port.

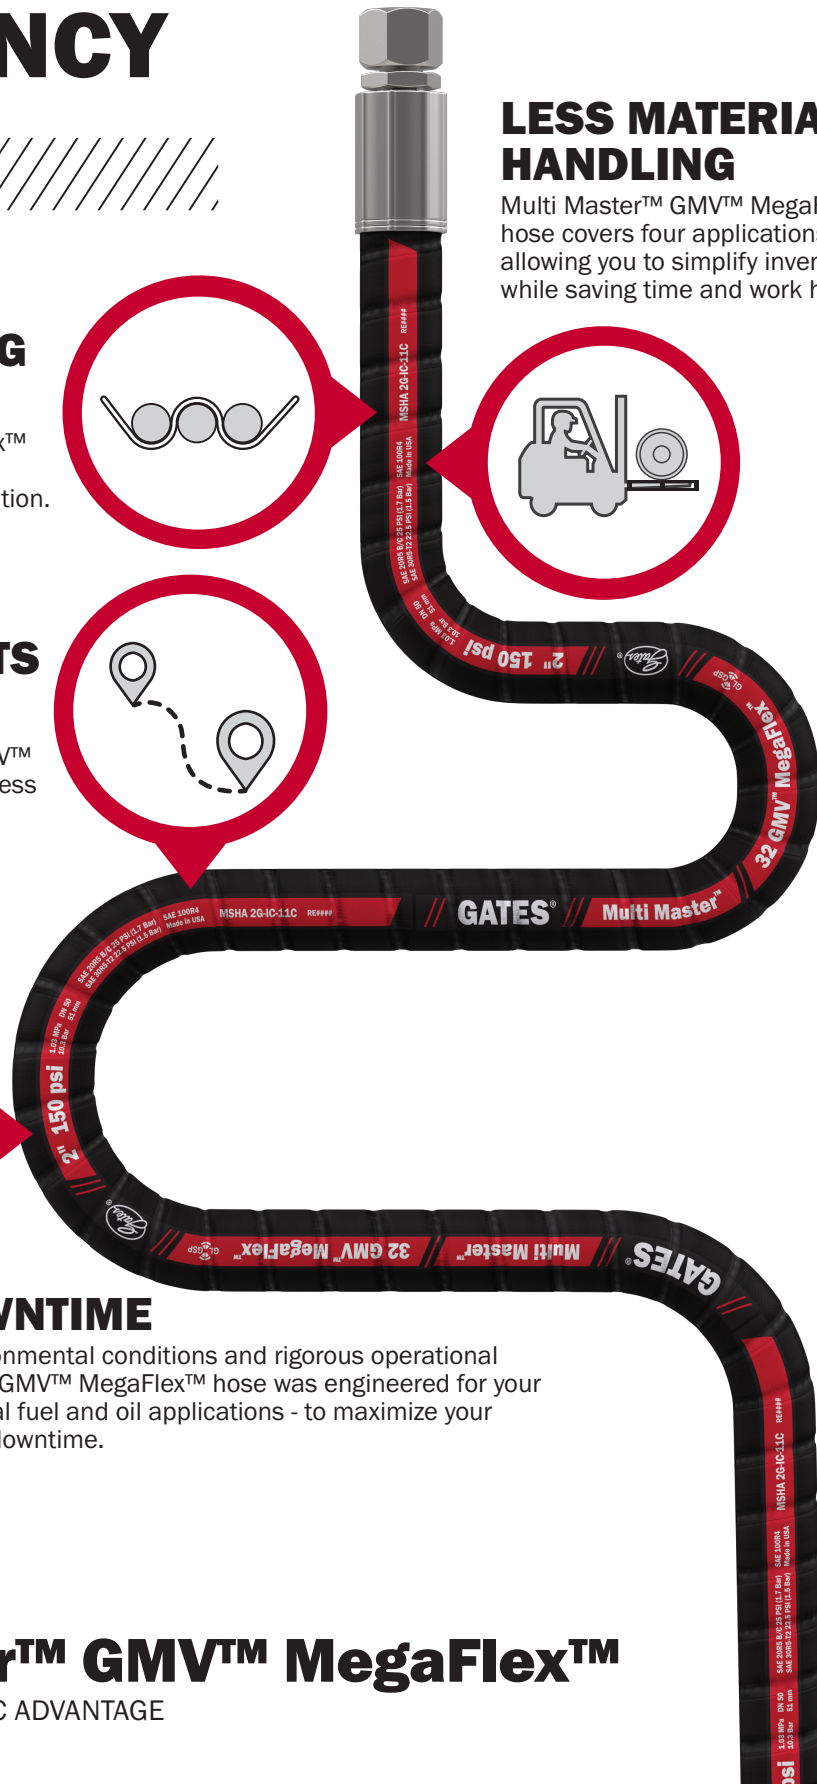

REDUCE DOWNTIME

Tested under harsh environmental conditions and rigorous operational demands, Multi Master™ GMV™ MegaFlex™ hose was engineered for your most demanding industrial fuel and oil applications - to maximize your value and minimize your downtime.

LESS MATERIAL HANDLING

Multi Master™ GMV™ MegaFlex™ hose covers four applications, allowing you to simplify inventory, while saving time and work hours.

Multi Master™ GMV™ MegaFlex™

VERSATILITY IS A STRATEGIC ADVANTAGE

BECAUSE

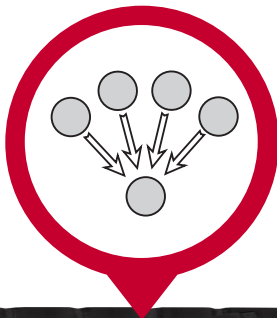

PERFORMANCE WINS

DRIVEN BY POSSIBILITY™

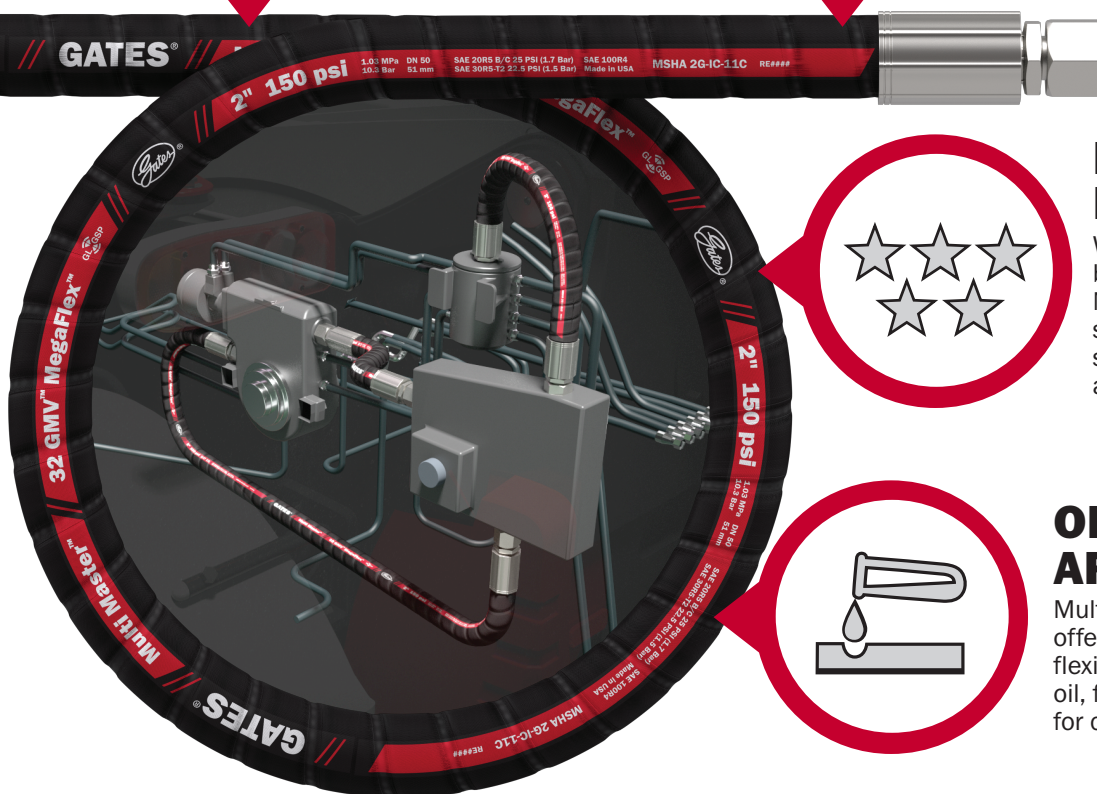

ONE HOSE FOUR APPLICATIONS

Multi Master™ GMV™ MegaFlex™ hose is a cross-functional solution, delivering superior performance across multiple specifications.

INNOVATE YOUR PROJECT

Multi Master™ GMV™ MegaFlex™ is engineered with Gates materials science expertise offering you a kink-free solution with less weight and ultimate flexibility.

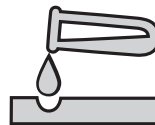

PREMIUM PERFORMANCE

With greater flexibility, a smaller bend radius, and lighter weight, Multi Master™ GMV™ MegaFlex™ solves complex routing in tight spaces, while saving you time and using less hose.

OPTIMIZE YOUR APPLICATION

Multi Master™ GMV™ MegaFlex™ offers exceptional strength and flexibility, while providing maximum oil, fuel and flame resistance for critical applications.

Multi Master™ GMV™ MegaFlex™

ENGINEERED FOR EVERY CHALLENGE

BECAUSE

OPERATIONAL CHALLENGES WERE MEANT TO BE OVERCOME

DRIVEN BY POSSIBILITY™

PUSHING BOUNDARIES

Tighter bend radius and lower force-to-bend gives Multi Master™ GMV™ MegaFlex™ hose unprecedented flexibility.

HOW DID GATES DO IT?

MATERIALS SCIENCE INNOVATION.

EXCEEDING EXPECTATIONS

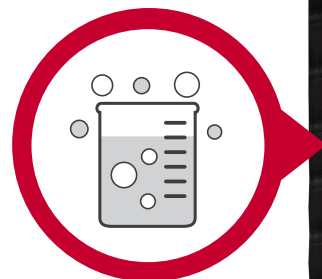

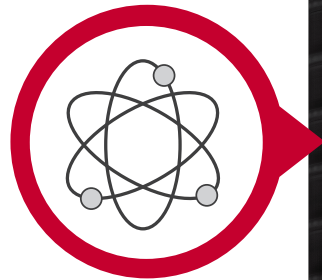

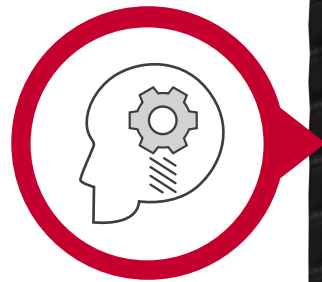

At Gates, we engineer application-specific solutions using premium materials that offer the best performance, like the extreme flexibility and versatility in Multi Master™ GMV™ MegaFlex™.

INTENTIONAL INNOVATION

This process of discovery and intentional innovation leads to technology breakthroughs, allowing us to create solutions that exceed the expectations of our customers around the world.

PREMIUM PERFORMANCE

Our Materials Scientists designed Multi Master™ GMV™ MegaFlex™ hose to be flexible and lightweight for our customers critical industrial and hydraulic applications.

Multi Master™ GMV™ MegaFlex™

INNOVATION FUELED BY MATERIALS SCIENCE

ONE HOSE. FOUR USES. ULTIMATE FLEXIBILITY.

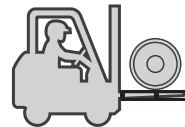

DRIVEN BY POSSIBILITY™

LIGHTER WEIGHT AND MORE FLEXIBLE

A smaller bend radius offers kink-free complex routing in tight spaces.

IMPROVE INVENTORY COSTS

Consolidate inventory, save floor space, and simplify hose selection with one multi-purpose hose.

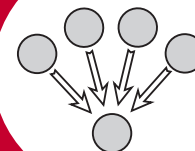

INCREASE OPERATIONAL EFFICIENCY

Faster routings, lower material handling costs, and reduced hose lengths – all from Multi Master™ GMV™ MegaFlex™.

YOUR PEOPLE MATTER

More ergonomic installation and easier lifting for the people you rely on to make business happen.

SIMPLIFIES HOSE OPTIONS

Multi Master™ GMV™ MegaFlex™ covers multiple industry specifications with one hose.

Multi Master™ GMV™ MegaFlex™

REDEFINING WHAT'S POSSIBLE AROUND THE WORLD
